## **DETAILED ACTION**

### ***Priority***

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/854,125, filed on 10 May 2001.

### ***Allowable Subject Matter***

Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance:

In regards to claim 1, none of the prior art of record discloses a first storage sub-system, a second storage sub-system and a third sub-system, each comprised in the manner specified, wherein the first and second storage sub-systems are each configured to synchronously transmit data to the second storage sub-system, in combination with the other specified claim limitations. The combination of three storage systems, two being in synchronous communication and the third (disclosed as third sub-system and its data storage system disclosed as the second data storage system) in communication with the first storage sub-system in the differential backup method as claimed in lines 15-28 is not disclosed in the prior art of record, nor is rendered obvious to one of ordinary skill in the art by the combination of any prior art references. For this reason, claim 1 is found allowable over the prior art of record, and claims 2 and 3 are found allowable as being dependent upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
